Same but Different

90 Visual Prompts for Math Discussion

by Sue Looney

These colorful cards will inspire dynamic mathematical conversations. Using photographs, illustrations, equations and more each card features a content-rich image comparison. Ask students to explore the math by asking, "What is the same? What is different?" about the two images. Display the cards for whole-class instruction, set them up in centers or use for small-group instruction. Each set includes three sets of 15 double-sided cards in each of the domains highlighted below plus an instruction card, for a total of 46 cards. Each card measures 4" x 6".
